

From our clients:

"Thought you may like to know that my basement and the French drain pipes inside are bone dry during and after the big storm. So your work is a complete success."

R.L.

Flemington, NJ

"A septic problem was discovered by our buyer's inspector that almost halted the sale of our house. Mark Hendrickson came in with his equipment and fixed the problem, not only the digging but also the repair of the septic lines. His bid was detailed and accurate, and the work was done in a timely and professional manner. His expertise and professionalism reassured our buyer, who stopped by to inspect the work in progress. I highly recommend Hendrickson Excavating for any septic or excavation needs."

S.B.

Lambertville, NJ

"It is not often you get new drainage tested by a major hurricane but.....It all worked perfectly! I had packed it all by driving over everything with my garden tractor and post 8" of rain it is all still there.

We seeded everything this weekend and are now ready for anything.

Thank you for the great work."

N. K.

Frenchtown, NJ

"After the engineer drafted the plan for our new septic system, we were given three names of excavators to seek bids on the project. Mark wasn't the least expensive, but was the most detailed in what he would provide for his service. The other two were very vague. At all times Mark explained the process that the job would take. The job was completed in the time he stated with all of the inspections passing. For all of the traffic of heavy equipment in our yard, Mark went the extra mile to make sure that our property was left in as good a shape (in our case better) than when he arrived. You will find Mark to be very professional, courteous, helpful, but above all, skilled in what he does."

"Hendrickson Excavating is one of the most professional companies we have dealt with. We appreciate Mark's (Hendrickson) guidance, honest, and straightforward advice. His company helped us a lot by installing drainage around our garage which now prevents the water from coming into our house during heavy rains. Mark came up with a cost-effective solution for our situation and finished the job in one day. We were amazed. We highly recommend them!"
